Parentapps Connect

You will receive a personal invite from your school to activate your Parentapps Connect Account

![parentapps — Keeping you Connected]

Step 1

Download the latest version of Parentapps Connect from the app store. Search for '**Parentapps Connect**' or '**PA Connect**'.

Step 2

Once the app has successfully downloaded onto your device, please refer back to your invitation and click the link. This will automatically populate the registration details into your app for you to Activate your account.

SUPPORT

If you are having trouble activating your Parentapps Connect Account, visit **supporthub.parentapps.co.uk** or get in touch with our Support Team on **0151 808 0093**.

How to download

Activate an additional account

What does this mean?

You can be signed into multiple accounts on Parentapps Connect! If you have multiple children in different schools, you will receive two seperate invitations, both can be activated using the same step-by-step process.

Instructions

Parentapps Connect should already be downloaded onto your mobile device. Please refer to your invitation(s) and click the activation link. This will automatically populate the registration details into your app for you to Activate your account.

SUPPORT

If you are having trouble activating your Parentapps Connect Account, visit **supporthub.parentapps.co.uk** or get in touch with our Support Team on **0151 808 0093**.

Dedicated Support Team

Why do schools change to mobile communication methods?

- Parents rarely visit the **school website**

- **Paper Expensive, time consuming,** not eco friendly, don't arrive home, don't get read, often come back in child's bag.

- **Text** Message **Expensive**, limited on characters, only goes to one primary contact, doesn't link to anything, parent's change their number and is old technology!

- **Email Problem, getting everyone's email** address, parents don't read them, **we all get too much email**, goes into junk, can't rely on when it will get read.

- **Social Media has Low take up**, parents **wary of social media,** open to other people other than parents, **better for marketing** the school.

Safeguarding & Data Protection

- **Secure Electronic Consent Forms**

- **Password-Protected Accounts**

- **Secure UK-Based Hosting & Security**

- **Completely GDPR Compliant**

Excellent Parent Support
