

Impact Statement Year 7 Literacy and Numeracy Catch-up Fund 2016-17

The literacy and numeracy catch-up premium gives schools additional funding to support year 7 pupils who did not achieve the expected standard in reading or maths at the end of key stage 2. For 2016-17 this meant a year 7 pupil recorded on the October 2016 school census and recorded in the 2016 key stage 2 assessment data as not having achieved KS2 score of 100 or above, in reading or mathematics.

For the academic year BCHS was awarded £16,500 for the literacy and numeracy catch up fund. The funding is held in a central budget and the Headteacher had oversight of the budget and how the funding has been allocated.

How the money was spent:

- 1:1 tuition through Academic mentors in English and mathematics
- Small group intervention in Maths delivered using 'Passport Maths'
- Small group focussed intervention through the SENCO and nurture team
- Reading 'buddy' programme using peer readers
- CPD on numeracy and literacy
- Dyslexia support
- Involvement in extracurricular activities
- Mentoring and counselling if emotional barriers exist
- Other staff CPD to better support students
- Rewards and prizes to help motivate and achieve goals
- Supplying additional resources – books and reading catch-up packs for use at home and in the library

Impact: 2016-17

For 2016-17 46% of students who came to BCHS were below the expected KS2 score of 100 in English and 25% in mathematics.

Maths impact:

- 86% of students caught up to expected progress or above.

English impact:

- 61% of students caught up to expected progress or above.
